# DSX-1042 Typical Connections

## DSX-1042 Typical Connections

**Output Extenders:** Use the DSX-0X4 to provide 4 additional Form-C Output Relays or the DSX-1043 to provide up to 16 Form-C Output Relays without using additional Device Addresses. One Extender can connect to a DSX-1022 or DSX-1042 at the Master port of a SLAVE CONTROLLER. (Required Terminations include TX-RX, RX-TX & +12VDC & GND).
